

People Solutions

OVERVIEW

Consultel Solutions' People Solutions is borne from our expertise in attracting and retaining highly skilled workers across a broad range of new technologies. Whilst the goal of recruitment - to source quality and motivated people - remains unchanged, we have adapted to the technological and economic shifts in sourcing talent. We can help you augment your existing workforce strategies with innovative talent sourcing solutions and expand your access to talent through our candidate pool.

Talent Augmentation

What is the service?

Consultel Solutions covers the end-to-end sourcing process and places skilled candidates in a variety of work arrangements. We provide niche talent sourcing services for organisations seeking specialised skill sets across: ICT and Engineering, Supply Chain Management and Customer Service, Sales, Marketing & CX. This means we have access to a network of high calibre candidates suitable for unique requirements. We focus on finding the right people and deliver via state-of-the-art candidate sourcing software.

What are the benefits?

Active talent network

Tap into Consultel Solutions' niche, active and global network of professionals to secure talent and onboard them with speed

Industry specialists

with a technical understanding to ensure that your current and evolving business needs are correctly paired with the required talent

Strategic workforce planning

courtesy of Consultel Solutions' years of experience with niche customer needs, and a consultative approach to talent sourcing that anticipates industry demands

Workforce MSP

What is the service?

We offer a holistic Managed Service Provider (MSP) procure to pay solution, providing access to talent that is managed by a single provider. This model can include sourcing services, contractor management and payroll services, migration services and outsourced HR.

We understand the intricacies of the contingent workforce and how these arrangements can work compliantly for your business.

What are the benefits?

Purity of focus

for the customer to talent, with one account manager across the procurement chain

Full compliance

through control and governance of your engagement channels across all worker types

Visibility of customer needs

through superior business intelligence with spend and headcount derived from a single source
